

# Message from the top

Paul Martin, an attorney from Montréal, Canada, and a strong proponent of the mine action cause, sends a clear message from the top after reaching the summit of the Kilimanjaro, the highest freestanding mountain in the world, on June 19, 2007 at sunrise. The "*No More Land Mines*" message was greatly popularized by Sir Paul McCartney, a leading world figure in the mine action cause, most notably during his "*Back in the U.S.*" tour in 2002 and the "*Back in the World*" tour in 2003.
